

JOB DESCRIPTION

LIGHTING DESIGNER – Responsible for design of lighting for show and oversight of all technical areas related to lighting

Key duties include:

- Work with director to understand his/her vision and needs, as well as to work out any potential problems related to space and special effects
- Determine best lighting design for the show considering script, location, and any needed special effects
- Work with producer to communicate budgetary needs and work within the assigned budget
- Collect all receipts for expenses and turn in to producer
- Develop light plot and produce instrument sheets showing instrument numbers, dimmer numbers, circuit numbers, focus areas, and gel colors
- Work with and direct crew to hang, focus and gel all lighting instruments
- Write cue sheets describing cues and cue numbers, cross-referenced to page numbers in script
- Program all cues into light board ; set light levels and cue fade times
- Run cue-to-cue technical rehearsal
- Replace burned out lamps during run of show as necessary
